Financial assistance for incomplete power projects

†852. SHRIMATI MAYA SINGH: Will the Minister of POWER be pleased to state:

(a) whether Government provided financial assistance to State Governments during 2005, 2006 and 2007, to complete the pending power projects;

(b) if so, the details thereof and which of the power projects have been completed by this assistance during the last three years, State-wise;

(c) the shortage of power in the country at present and the measures being taken to meet this shortage; and

(d) the details of the power projects under construction at present, State-wise?

THE MINISTER OF POWER (SHRI SUSHILKUMAR SHINDE): (a) and (b) The Ministry of Power does not directly provide assistance for setting up of generation capacity in the State Sector. However, during the last three years, the Ministry of power has released about Rs. 803 crore of interest subsidy for speedy completion of generation projects under Accelerated Generation and Supply Programme (AG&SP). State-wise details are given at Statement-I (*See* below). The Power Finance Corporation (PFC) and the Rural Electrification Corporation (REC) have sanctioned about Rs. 41922.136 crore as loans to States for setting up of new generation capacity as per details given at Statement-II (*See* below). The details of generation projects commissioned during the last 3 years & current year (till date with the financial support of the PFC and REC is at Statement-III (*See* below).

(c) During the year 2007-08 (till July 07), the country faced energy (MU) and peak (MW) shortages of 18969 MU (7.9%) and 13686 MW (13.4%) respectively. The measures taken/are being taken by the Government to meet the power shortage *inter-alia* include:

(i) Capacity addition to the tune of 78577 MW has been proposed.

(ii) Tapping of surplus power from captive power plants.

(iii) Promoting demand side energy efficiency and energy conservation measures.

(iv) Creation of a National Grid for optimum utilization of generation capacity through inter-regional transfer of power.

(d) Details of Eleventh Plan power projects (Thermal, Hydro and Nuclear) under construction is enclosed as Statement-IV, V and VI respectively.

---

†Original notice of the question was received in Hindi.

Statement-I

Funds released by Ministry of Power for setting up of new generation projects in the State Sector under AG&SP during 2004-05 to 2006-07.

(Rs. in crore)

Shortfall in electricity generation

853. SHRI SANJAY RAUT: Will the Minister of POWER be pleased to state:

(a) the total deficit of electricity generation compared to national requirement and the number of States facing a shortfall of electricity by more than 25 per cent;

(b) the estimates of generation of electricity for the Tenth Five Year Plan and the actual generation at the end thereof;

(c) whether it is a fact that even 50 per cent target of generation of electricity was not achieved during that plan;

(d) if so, the reasons therefor; and

(e) the details of steps taken or proposed to be taken for lessening the gap of electricity demand and supply upto 2012?

THE MINISTER OF POWER (SHRI SUSHILKUMAR SHINDE): (a) The energy requirement and energy availability in the country during the year 2007-08 (April - July, 2007) was 240,834 Million Units (MU) and 221,865 MU respectively, resulting in energy deficit of 18,969 MU (7.9%). The gross energy generated in the country during the said period was 234,208 MU (including import from Bhutan).

Among the States, Maharashtra, Arunachal Pradesh and Mizoram faced peak shortage of more than 25% and Meghalaya faced peak as well as energy shortage of more than 25% during the period April- July, 2007.

(b) The target for generation of electricity is decided on an annual basis. The year-wise actual electricity generation *vis-a.-vis* the target for the Tenth Plan was as under:
